(54) Title: STABILISER, JETTING AND CIRCULATING TOOL

(57) Abstract: A downhole tool (10) for use in oil and/or gas well bores. The tool has a tubular body (20) and a sleeve (22) including stabiliser blades (30). The tool is ball (76), activated, weight activated or hydraulically activated to selectively jet fluid from the body through jetting ports (44A, 44B, 44C) on the blades. Thus the tool provides the features of a stabiliser, cleaning tool and circulation tool in-one.
